*...from the time I found myself at home in that little segregated library in the South, all the way up until I walked up the steps of the New York City Library, I always felt, in any town, if I can get to a library, I'll be okay. It really helped me as a child, and that never left me.*

## ***From the desk of the Library Director...***

Well folks, it's been a few months now since I had the honor and privilege of coming to work for the Anadarko Community Library. It has been an incredible experience.

We all know this is a special, unique community—the City of Anadarko as well as greater Caddo County. Although I have had the opportunity to work in libraries all around this nation, I have lived in this area off and on since 1978. It is home.

My aim is to have everyone in Anadarko obtain a library card and *use it*. We have more and more programs for kids, teens and adults coming up in the next months. The Library is more than a place for books. We have computers and wi-fi, genealogical and newspaper archives, movies, a community meeting room for public use and much more.

I want to thank the helpful, knowledgeable Library staff, the citizens of Anadarko, all the wonderful patrons I've met, our excellent Library Board, the Friends of the Library Group, the hardworking, dedicated people at City Hall and the city employees who do such great jobs at making this town work.. Your local Library is truly a jewel, and it is what it is because of *all of you*. **Own it.**

Please know my door is always open. Feel welcome to come in or to call. I want to know what the people of this city would like to see at the library —materials and events both. Have a great day!
